EXPERIENCE & PROJECTS

Snake Game | Project Spring 2023

CMSC 256 DATA STRUCTURE & OBJECT PROGRAMMING Javas | Bridges.API • Developed a fully functional snake game in JAVA using bridges API to display and run the game on the front end. The code functioned using stacks and linked lists to code the keyboard directions, game board display color, game limits, calculations for the score counter.

RAM safe | Project Spring 2023

CMSC 256 DATA STRUCTURE & OBJECT PROGRAMMING Java | Bridges.API

- Collaborated with team members to identify issues with the front and back ends of the RAM safe app. The RAM Safe app is a VCU ride-share app for students. After finding the issues we worked together to come up with ways to better the front end and back end of the software.

Expression Tree Bridges | Project Spring 2023

CMSC 256 DATA STRUCTURE & OBJECT PROGRAMMING Java | Bridges.API

- Implemented arithmetic expression tree in JAVA using Bridges API's BinTreeElement' class. In this project, the BinTree is parsed using mathematical expressions from the strings and returns the root of the expression parse tree.
